

"BUILDING THE FUTURE WITH INNOVATIVE SOLUTIONS"

ABOUT US

Air Tech Contracting & Trading CO. (LLC) is a leading provider of high-quality composite panel systems and accessories for warehouse and shed construction. With a focus on innovation and customer satisfaction, we offer a complete range of services, including supply, installation, and maintenance of our products. Our experienced team of professionals is dedicated to ensuring that every project is completed on time, within budget, and to the highest standards of quality. In addition to our expertise in warehouse and shed construction, we are also specialists in the installation and maintenance of sandwich panel systems for cold rooms. Our systems are designed to provide reliable insulation, ensuring that your food and other perishable items stay fresh and at the right temperature.

THANK YOU

ELECTRO MECHANICAL

At Air Tech, we have a team of highly skilled engineers and technicians who are experts in both electrical and mechanical engineering. Our team has the knowledge and experience to design, manufacture, and install custom solutions for processing plants, rendering plants, water treatment, and other automation systems that are tailored to the specific needs of each client. We use the latest technologies and materials to ensure that our systems are reliable, energy-efficient, and easy to maintain.

We offer a full range of services, including design, installation, commissioning, and maintenance of processing plants, rendering plants, water treatment, and other automation systems. We work closely with each client to understand their unique requirements and provide them with the best possible solution. Our team is available 24/7 to provide emergency repair services, ensuring that our clients' systems are up and running as quickly as possible.

At Airtech, we are committed to sustainability and environmental responsibility. Our solutions for processing plants, rendering plants, water treatment, and other automation systems are designed to reduce waste and conserve energy, making them an eco-friendly solution for our clients. We also offer ongoing maintenance and support to ensure that our clients' systems are operating efficiently and effectively, reducing their environmental impact and helping them achieve their sustainability goals.
